PGA Clubs-for-Kids

Jeff Staker, PGA

Used golf clubs have been donated to Cleveland Metroparks by various generous individuals and organizations. Parents or guardians of children ages 17 and under may request these clubs for their children.

Clubs are then cleaned, cut down to appropriate length, and re-gripped. Two to five weeks should generally be allowed for clubs to be produced. The cost per club is $7. Refunds: If, for any reason, a parent or child is not satisfied with a club he/she has received, return the club(s) along with the receipt for a full refund.

Guidelines for Set Make-ups

The charts below are shown to provide guidelines or recommendations to help a parent or guardian choose the best set make-up for their child, but that is all they are, just guidelines. Each child has different skills, strengths, and enthusiasm. As examples; A young junior and a new golfer may want to order one or two clubs just to be able to "sample" the game by hitting golf balls on the driving range. An older junior who is serious about golf may want to order a full set (10 to 14 clubs). To be able to play golf on the course, a minimum of 3 to 4 clubs should be ordered (one putter, one or two irons, & one wood).

Note regarding "hybrid" clubs: A hybrid club, a cross between a wood and an iron, is very popular in today's golf game. Hybrids are not included in the above charts because so few have been donated to the Clubs-for-Kids program.
